SECTION 1: Identification

1.1. Identification

Product form : Mixture
Product name : Colorfast

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/mixture : Coating

This SDS is designed for workplace employees, emergency personnel and for other situations where there is potential for large-scale or prolonged exposure, in accordance with the OSHA/WHMIS requirements.

This SDS is not applicable for consumer use of our products. For consumer use, all precautionary and first aid language is provided on the product label, MSDS or both in accordance with applicable government regulations.

1.3. Details of the supplier of the safety data sheet

Manufacturer
Sashco Inc
10300 E. 107th Place
Brighton, CO 80601 - USA
T 303-286-7271
info@sashco.com

Distributor
Add the name, address and tel. number of the Canadian manufacturer or importer who operates in Canada

1.4. Emergency telephone number

Emergency number : 800-535-5053

SECTION 2: Hazard identification

2.1. Classification of the substance or mixture

GHS classification
Skin Sens. 1
Carc. 2

2.2. Label elements

GHS labelling
Hazard pictograms (GHS) :

![GHS07]
![GHS08]

Signal word (GHS) : Warning
Hazard statements (GHS) : May cause an allergic skin reaction. Suspected of causing cancer.
Precautionary statements (GHS) : Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid breathing dust/fume/gas/mist/vapours/spray. Contaminated work clothing must not be allowed out of the workplace. Wear protective gloves/protective clothing/eye protection/face protection. If exposed or concerned: Get medical advice/attention. If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse. Store locked up. Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation.

2.3. Other hazards

Other hazards not contributing to the classification : Contaminated rags, sawdust, or other ignitable absorbent material may SPONTANEOUSLY CATCH FIRE. Soak in water in a closed metal container immediately.

2.4. Unknown acute toxicity

Not applicable

SECTION 3: Composition/information on ingredients

3.1. Substances

Not applicable
According to the Hazard Communication Safety Data Sheet

**Colorfast**

**Safety Data Sheet**

### 3.2. Mixtures

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

- **First-aid measures general**: If exposed or concerned: Get medical advice/attention.
- **First-aid measures after inhalation**: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical advice/attention if you feel unwell.
- **First-aid measures after skin contact**: IF ON SKIN: Wash with plenty of water. Take off contaminated clothing and wash it before reuse. If skin irritation or rash occurs: Get medical advice/attention.
- **First-aid measures after eye contact**: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
- **First-aid measures after ingestion**: Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical advice/attention if you feel unwell.

#### 4.2. Most important symptoms and effects, both acute and delayed

- **Symptoms/effects after inhalation**: May cause irritation to the respiratory tract.
- **Symptoms/effects after skin contact**: May cause skin irritation. Repeated exposure may cause skin dryness or cracking. May cause an allergic skin reaction.
- **Symptoms/effects after eye contact**: May cause eye irritation. Symptoms may include discomfort or pain, excess blinking and tear production, with possible redness and swelling.
- **Symptoms/effects after ingestion**: May cause gastrointestinal irritation, nausea, vomiting and diarrhea.
- **Chronic symptoms**: Suspected of causing cancer.

#### 4.3. Indication of any immediate medical attention and special treatment needed

Symptoms may be delayed. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

### SECTION 5: Fire fighting measures

#### 5.1. Extinguishing media

- **Suitable extinguishing media**: Use an extinguishing agent suitable for the surrounding fire.
- **Unsuitable extinguishing media**: None known

#### 5.2. Special hazards arising from the substance or mixture

- **Fire hazard**: Products of combustion may include, and are not limited to: oxides of carbon.

#### 5.3. Advice for firefighters

- **Firefighting instructions**: Move containers away from the fire area if this can be done without risk. Cool closed containers exposed to fire with water spray.
- **Protection during firefighting**: Keep upwind of fire. Wear full fire fighting turn-out gear (full Bunker gear) and respiratory protection (SCBA).

### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

- **General measures**: Use personal protection recommended in Section 8. Isolate the hazard area and deny entry to unnecessary and unprotected personnel.

#### 6.1.1. For non-emergency personnel

No additional information available

#### 6.1.2. For emergency responders

No additional information available
6.2. **Environmental precautions**

Prevent entry to sewers and public waters.

6.3. **Methods and material for containment and cleaning up**

For containment: Stop leak if safe to do so. Larger spills should be contained with non-combustible absorbent materials like earth, sand, diatomaceous earth, or vermiculite and placed in containers for disposal according to local regulations. Contaminated rags, sawdust, or other ignitable absorbent material may SPONTANEOUSLY CATCH FIRE. Soak in water in a closed metal container immediately. Do not flush into surface water or sewer system. Wear recommended personal protective equipment.

Methods for cleaning up: Sweep or shovel spills into appropriate container for disposal. Provide ventilation.

6.4. **Reference to other sections**

For further information refer to section 8: "Exposure controls/personal protection"

### SECTION 7: Handling and storage

#### 7.1. **Precautions for safe handling**

**Precautions for safe handling:** Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid contact with skin, eyes and clothing. Avoid breathing dust/fume/gas/mist/vapours/spray. Do not swallow. Handle and open container with care. When using do not eat, drink or smoke. Stir well before use. Wear personal protective equipment. Formaldehyde and ethylene oxide are subject to standards 29 CFR 1910.1048 and 29 CFR1910.1047, which may contain specific requirements for handling including protective equipment, regulated areas, monitoring and medical surveillance. The employer should review the standard and assure compliance with applicable requirements.

*Handling temperature*: 4 - 32 °C (40 - 90 °F)

**Hygiene measures:** Take off contaminated clothing and wash it before reuse. Contaminated work clothing should not be allowed out of the workplace. Always wash hands after handling the product.

#### 7.2. **Conditions for safe storage, including any incompatibilities**

**Storage conditions:** Keep out of the reach of children. Keep container tightly closed. Store locked up. Store at room temperature. Do not freeze.

### SECTION 8: Exposure controls/personal protection

#### 8.1. **Control parameters**

#### 8.2. **Exposure controls**

**Appropriate engineering controls:** Ensure good ventilation of the work station. Provide readily accessible eye wash stations and safety showers.

**Hand protection:** Wear suitable gloves resistant to chemical penetration.

**Eye protection:** Safety glasses or goggles are recommended when using product.

**Skin and body protection:** Wear suitable protective clothing.

**Respiratory protection:** In case of insufficient ventilation, wear suitable respiratory equipment. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

**Environmental exposure controls:** Avoid release to the environment.
Colorfast
Safety Data Sheet

Other information : Handle in accordance with good industrial hygiene and safety procedures. Do not eat, drink or smoke when using this product.

9.2. Other information

VOC content : < 50 g/l

SECTION 10: Stability and reactivity

10.1. Reactivity

No dangerous reactions known under normal conditions of use.

10.2. Chemical stability

Stable under normal conditions.

10.3. Possibility of hazardous reactions

Material will oxidize and can cause SPONTANEOUS COMBUSTION of contaminated rags, sawdust, or other ignitable absorbent material. Immerse in water immediately.

10.4. Conditions to avoid

10.5. Incompatible materials

Strong oxidizers.

10.6. Hazardous decomposition products

May include, and are not limited to: oxides of carbon.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

<table>
<thead>
<tr>
<th>Effect</th>
<th>Classification</th>
</tr>
</thead>
<tbody>
<tr>
<td>Acute toxicity (oral)</td>
<td>Not classified</td>
</tr>
<tr>
<td>Acute toxicity (dermal)</td>
<td>Not classified</td>

</tr>
</tbody>
</table>
Bis(1,2,2,6,6-pentamethyl-4-piperidyl) sebacate (41556-26-7)

LD50 oral rat
2615 mg/kg

Diuron (330-54-1)

LD50 oral rat
4990 mg/kg
LD50 dermal rat
> 2000 mg/kg
LC50 inhalation rat
> 0.265 mg/l

Skin corrosion/irritation
Not classified.

pH: 8.5 - 9

Serious eye damage/irritation
Not classified.

pH: 8.5 - 9

Respiratory or skin sensitisation
May cause an allergic skin reaction.

Germ cell mutagenicity
Not classified.

Carcinogenicity
Suspected of causing cancer.

Reproductive toxicity
Not classified.

STOT-single exposure
Not classified.

STOT-repeated exposure
May cause damage to organs through prolonged or repeated exposure.

Aspiration hazard
Not classified.

Symptoms/effects after inhalation
May cause irritation to the respiratory tract.

Symptoms/effects after skin contact
May cause skin irritation. Repeated exposure may cause skin dryness or cracking. May cause an allergic skin reaction.

Symptoms/effects after eye contact
May cause eye irritation. Symptoms may include discomfort or pain, excess blinking and tear production, with possible redness and swelling.

Symptoms/effects after ingestion
May be harmful if swallowed. May cause gastrointestinal irritation, nausea, vomiting and diarrhea.

Chronic symptoms
Suspected of causing cancer.

Other information
Likely routes of exposure: ingestion, inhalation, skin and eye.

SECTION 12: Ecological information

12.1. Toxicity
Ecology - general
May cause long-term adverse effects in the aquatic environment.

12.2. Persistence and degradability
No additional information available.

12.3. Bioaccumulative potential
No additional information available.

12.4. Mobility in soil
No additional information available.

12.5. Other adverse effects
No additional information available.

SECTION 13: Disposal considerations

13.1. Waste treatment methods
Product/Packaging disposal recommendations
Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation.

SECTION 14: Transport information

Department of Transportation (DOT) and Transportation of Dangerous Goods (TDG)
In accordance with DOT/TDG
Not regulated

Transport by sea
In accordance with IMDG
Not regulated

15.3. US State regulations

⚠️ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov.

SECTION 16: Other information

Revision date : 02/13/2020
Other information : None.
Prepared by : Nexreg Compliance Inc.
Prepared by : www.Nexreg.com

NFPA health hazard : 1 - Materials that, under emergency conditions, can cause significant irritation.
NFPA fire hazard : 0 - Materials that will not burn under typical fire conditions, including intrinsically noncombustible materials such as concrete, stone, and sand.
NFPA reactivity : 0 - Material that in themselves are normally stable, even under fire conditions.

Hazard Rating
Health : 1 - Slight Hazard - Irritation or minor reversible injury possible
Health : * - Chronic (long-term) health effects may result from repeated overexposure
Flammability : 0 - Minimal Hazard - Materials that will not burn
Physical : 0 - Minimal Hazard - Materials that are normally stable, even under fire conditions, and will NOT react with water, polymerize, decompose, condense, or self-react. Non-Explosives.
